this book takes stock of learning theories in the european union eu integration literature and assesses what insights the

concept of learning has added to our understanding of the european integration processes given the european integration dynamics since 2000 including enlargement and new governance approaches and instruments learning and learning related theories have gained major eu significance the book addresses the less noticed micro level patterns of behavioural change that deserve more visibility in the eu s theoretical toolbox it focuses on the conditions under which eu actors in various decision making processes learn or do not learn in asking this question it raises issues about the eu s nature do the eu conditions that favour learning outweigh the eu conditions that inhibit learning is the eu system too complex for learning processes to have a discernible concrete impact to assess the degree that the eu system and its member states learn the authors selected for this volume are all explicitly comparative in their approach and have been encouraged to look at differences across political systems in doing so the authors study how eu member states eu institutions and other groups and organisations pursue learning across the multi level eu policy process this book was previously published as a special issue of journal of european public policy

most non governmental organizations ngos in the arab world have traditionally been active in the areas of social work and charity often within a religious or communal framework but recently many of these organizations have become the forum for conflicts between different political trends while others tackle political problems such as human rights or democratic issues facing the rejuvenated ngo scene in the arab world public authorities remain torn between support for the concerns of civil society and the traditional mode of management which does not delegate consult or decentralize can ngos in the arab world be considered full fledged actors of governance and of national and local development is the relationship between ngos and public authorities at the national and local level one of partnership or opposition and competition are ngos perceived to be palliatives to the shortcomings of the public authorities how is the relationship between ngos and society to be defined do arab ngos highlight the issues that remain undetected by the classical methods of action of the public authorities the studies in this collection arising out of the conference on ngos and governance in the arab world held in cairo in march 2000 attempt to answer these and other areas of concern contributors sylvia chiffoleau dina craissati guilain denoeux mona fawaz vivian fouad sari hanafi karam karam samir marcos nicola pratt nadia refat pierre jean roca muhamad al sayyid said salma aown shawa abd al ghaffar shukr

the book provides a comprehensive analysis of local government in federations it fills the gap in current legal research and positions local government in federal studies through the lenses of comparative law adopting a more nuanced approach to local government the book considers the shortcomings between the black letter constitution and its operational rules whether and how the regime of local government is implemented is more relevant than its formal but ineffective recognition the comparative survey discloses the variety local institutions take in different federal contexts divided into three parts the book comprises chapters investigating local government in systems that to various degrees have been examined and classified as federal scholars throughout the world have examined the federal local connection in aggregative federations the usa canada switzerland germany australia and austria devolutionary ones belgium bosnia herzegovina italy spain the uk argentina brazil mexico and the russian federation as well as in federations beyond the west where federalism as a colonial legacy has undergone a process of reinvention affecting the federal local connection south africa ethiopia india nigeria comoros democratic republic of congo nepal palau federated states of micronesia st kitts and nevis united arab emirates and pakistan

this book is the immediate result of the co operation of a great number of scholars in the netherlands institute of government nig nig is an interuniversity research school as such it has a double task in addition to offering a ph d program to students in public administration it also is a research institute in which a great number of scholars from seven dutch universities participate and work on a common research program the chapters in this book are all products of the research program that started in 1995 this program had the ambition to explore the frontiers of the discipline in two respects first by studying a number of recent developments in society and their consequences for the functioning of government these consequences can be summarised as the development of a system of multi level and multi actor governance second by contributing to the knowledge of institutions both by studying what factors are most important in the formation and change of institutions and by studying the effects of institutions on the behaviour of actors in different

political and administrative settings most contributions to this volume either have their origin in conferences organized by the nig or were published as an nig working paper we are grateful to marcia clifford and connie hoekstra who prepared the final version of the manuscript to ian priestnall who took care of the language editing and to an anonymous reviewer whose comments were gratefully used

what are the conditions for political development and decay and the likelihood of sustained political order what are the limits of established rule as we know it how much stress can systems tackle before they reach some kind of limit how do governments tackle enduring ambiguity and uncertainty in their systems and environments these are some of the big questions of our time governance in turbulent times may serve as a stress test of well known ways of governing in the 21st century governance in turbulent times discusses this pertinent challenge and suggests how governments and organizations cope with and live with turbulence the book explores how organizations and institutions respond to precipitous conflicting and novel in short turbulent governance challenges this book is a comprehensive and ground breaking endeavor to understand how governance systems respond to turbulent challenges and how turbulent times provide excellent opportunities to investigate the sustainability of governance systems the book illustrates how politics administrative scale and complexity uncertainty and time constraints can collide to produce turbulence building on prior work in organization theory and political science we argue that turbulence refers to four properties related to the interaction of demands for action variability consistency expectation and unpredictability turbulence occurs where the interaction of demands is experienced as highly variable inconsistent unexpected and or unpredictable

this text provides a comprehensive introduction to local government and urban politics in contemporary western europe it is the first book to map and explain the significant processes of change characterizing local government systems and to place these in a genuinely comparative context students are introduced to the traditional structures and institutions of local government and shown how these have been transforming in response to increased economic and political competition new ideas institutional reform and the europeanization of public policies in europe at the books core is the perceived transition from local government to local governance this key development is traced thematically across a w

this book is a practical guide for executive and non executive directors and aspiring directors to lead govern and steer uk based organisations to long term sustainable success in today s turbulent environment corporate governance is increasingly scrutinised and this book will consider how directors can bring

the future forward with respect to responsible and ethical governance and leadership against the challenging political environmental and economic backdrop while other books discuss uk corporate governance this one uniquely demonstrates how the work of directors can build an organisation s antifragility and offers a view of stewardship approaches to every sector and type of uk organisation from large premium listed companies to start ups the public sector not for profits partnerships and family owned and private equity backed organisations aspiring and experienced directors will each benefit from this book as well as those who provide board evaluation services professional advisers auditors and those who provide training and other support for board members

the oxford handbook of governance presents an authoritative and accessible state of the art analysis of the social science literature on governance the volume presents the core concepts and knowledge that have evolved in the study of governance in different levels and arenas of politics and policymaking in doing so it establishes itself as the essential point of reference for all those studying politics society and economics from a governance perspective the volume comprises fifty two chapters from leaders in the field the chapters are organized in nine sections dealing with topics that include governance as the reform of the state democratic governance european governance and global governance

this handbook covers all major aspects of eu cohesion policy one of the most significant areas of intervention of the european union over five parts it discusses this policy s history and governing principles the theoretical approaches from which it can be assessed the inter institutional and multi level dynamics that it tends to elicit its practical implementation and impact on eu member states its interactions with other eu policies and strategies and the cognitive maps and narratives with which it can be associated an absolute must for all students of the eu

the voting rights act of 1965 which originally was intended to prohibit barriers to black registration and voting has been hailed as a triumph for civil rights and as a catalyst for the election of minorities to public office in both the deep south and the urban north to advance its objective federal courts instructed many cities to change from at large to single member district electoral systems as a way to ensure that minorities had a reasonable chance to elect representatives of their choice in the first book to critique the implementation of this landmark legislation in a major american city ruth morgan examines its effect on local governance over forty years in dallas and shows that it had unintended consequences for racial politics representation and public policy breaking from studies that measure the success of the vra in terms of increased

minority representation morgan assesses the consequences of the act for dallas city government and for the wider interests of minorities as well while endorsing the original intent of the vra morgan believes that this intent was subverted by subsequent amendments to the act and by the courts attempts to advance the political standing of particular minority groups she argues that court imposed single member districts have created in dallas a city council infected with parochialism and careerism a result of members no longer having to compromise to win citywide votes and have had an adverse impact on governmental effectiveness and voter turnout with corruption and cronyism now rampant voting rights legislation and litigation have ultimately failed to fulfill the hopes and aspirations of the unempowered and the district system has created an incentive for continued racial separation governance by decree offers a pointed assessment of the complexities and contradictions produced by the voting rights law while at the same time calling for the federal judiciary to exercise restraint in imposing its will when it lacks the capacity to make choices that are inherently political morgan s powerfully argued case study should inspire much debate and inform forthcoming congressional deliberations over the renewal of the preclearance section of the vra in 2007

a collection of lectures seminar papers and keynote addresses from the last thirty years by chief akinyele a top level nigerian civil servant the work is divided into four parts and covers government economic policies and the private sector government budgeting administration and public management and other topical issues which include chapters on university administration managing the church in the twenty first century and the responsibilities of voluntary organisations in nigeria broadly the papers argue for the need to narrow the gap between management practices in the public and private sectors in the interest of the health of the national economy they stress the overarching imperative of resource allocation principles in conditions of scarcity the need for a slimmer and more results orientated government and a better organised private sector equipped to assume the leadership of the national economy
